I/WE

1. Apply for consent under the provisions of Section 23 of the Land Drainage Act 1991 and Drainage Board Bye-Laws to carry out works as described in this Application and on the attached plan(s).
2. Enclose a cheque for **£50.00** to cover the cost of the application, made payable to the relevant Drainage Board.
3. Enclose one copy of the suitable plans sufficient to show clearly the location of the proposed works, together with one copy of plans and sections showing details of the proposed works to a scale appropriate to the nature of the works and any relevant calculations.
4. Confirm that I/We have the right to carry out the works and have obtained consent or approval as necessary.
5. Do not know of or suspect any other facts or information which would or might affect the granting of or conditions which might be imposed on the consent applied for.
6. Confirm that I/We will notify the Drainage Board of any future changes in the information given in this application which might be material to the continuation of this consent.
7. Confirm that all information given in this application and any questions which the Drainage Board may have about it is/will be true to the best of my/our knowledge, information and belief.
8. Undertake to submit a full and accurate application and accept that the period of two months specified in Section 23 of the Land Drainage Act 1991 for deciding the issue will not begin to run until the Drainage Board is satisfied that it has all the necessary information.

Please return this form, together with your fee, to JBA Consulting Ltd., Denison House, Hexthorpe Road, Doncaster, DN4 0BF

SIGNED

ON BEHALF OF

DATED

**ENVIRONMENTAL CONSIDERATIONS
FOR LAND DRAINAGE CONSENTS**

The Board is required to consider the environmental implications of all works in the district which require its consent under the Land Drainage Act 1991 (as amended). The applicant is required to demonstrate the environmental impact of the proposals is negligible or can be mitigated against.

A number of species of animals and plants are protected under the Wildlife and Countryside Act 1981 (as amended). Water voles, otters, badgers and bats are known to inhabit watercourses and have varying degrees of protection under legislation. Other species may also be present in the area. The applicant is required to demonstrate that the proposed works are not likely to adversely impact on protected species and/or protected habitats. A surveyor opinion, by a suitably qualified individual, with mitigation proposals where appropriate will suffice in most cases.

Works which may affect sites of national or international wildlife importance require further measures to be taken. Such works may be remote from the site and the area of influence must be determined by the Board. The Board is required to obtain the assent of English Nature to such works which is independent of any consent/assent the applicant may be required to obtain. In such cases where assent is required, the period required by the Board to determine an application is extended to 8 weeks for national sites and 16 weeks for international sites. The Board will endeavour to determine application as soon as possible but is dependant upon the responses from English Nature.
