DJ advised he had spoken to Keith Thompson at the Council and had forwarded an email response to the Clerk regarding the matter being discussed in Westminster and that the IDB were not a statutory body. Discussions were held with the consensus that a meeting still needed to be held between the Board and the Council to discuss the implications

of excluding the Boards comments from any decisions. NC pointed out that the same Item should have referred to Emma Hardy as Minister for Flood and Water. Chair acknowledged.

**2026.5** FO advised Members that in relation to Item 2025.82 the Chair had agreed a new two-year Electricity contract from October 2026.

**2026.6** FOI/Complaints – None.

**2026.14** Risk Register – FO took Members through with approval proposed by RF and seconded by MB.

**2026.15** Schedule of Payments –DJ queried the PWLB stating that the payment doesn't appear to have dropped despite interest rates having fallen and was that the only means of borrowing available. Clerk advised that the rates are set at the time the loan is taken out and the Boards Capital Reserve balance would mean the need to borrow in future will be reduced. **Schedule approved by DJ and seconded by BH.**

**2026.16** Rates and Special Levies for Year Ending 31 March 2027 – FO took Members through advising that overall there would be a £2,000 positive variance to the budget for the current year generating a healthy surplus and a carry forward balance of £320,428. He then advised that at the current rate, the new budget would generate a surplus of £79,397 which would be a reserve level of 109% with the balance at £299,874, so recommended there was no need for a rate increase. Discussions took place with NC asking what impact a reduction to the rate to 4.9p would have. FO confirmed that a penny on the rate raised £53,732, a surplus would still be achieved but the Board did choose to transfer monies to the Capital Account for the replacement program. **NC then proposed a rate reduction to 4.9p based on the challenging times and the fact that the Board could afford to and still be sustainable. MB referred to the Capital Reserve Account advising that would be reluctant to take money from that so proposed to leave the rate at 5.9p based on the FO recommendation. BH seconded MB proposal and a vote was held with 5 Members in favour and 1 against. NC proposal was considered but no Member seconded so the decision moved was to leave the rate at 5.9p.**
