Notes:

Income

- C. Higher Land Water Contribution: This should include the full contribution received, from the Environment Agency, regardless of any adjustment with the Environment Agency Precept.
- D. Contributions from Developers and Other Beneficiaries: This includes financial support from developers, partners, and government bodies (where the funding doesn't fall under other rows) that contribute to maintaining and improving infrastructure. Please note: Fees paid for consent applications should be recorded under "Other Income", not in this section.
- E. Receipts from grants: This should cover any Government grants (including from the Environment Agency and Natural England) that you have received in year, including the FDGiA, IDB Fund grants, Local Levy, and other grants you may also receive (such as Countryside Stewardship, provided by the Rural Payments Agency, for water level management). Please list each grant source as separate lines in the sub-table and show the total amount from all sources in the final column (AA).
- F. Public Sector Cooperation Agreements (PSCAs): This covers all such agreements in the reporting period. PSCA income should be the full amount and include any contribution towards the board's administration costs. Please list the funding from each source as separate lines in the sub-table and show the total amount from all sources in the final column (AA).
- G. Rechargeable works: This is where the board does work on behalf of someone else, e.g. a landowner, local authority, etc. For consortia this should include technical costs associated with an externally funded or self-funded scheme but should not include recharge of general administration costs.
- I. Rents and Acknowledgements: Rent is income through a formal lease. Income through a payment for a fee, service or historical right, where there is not a formal agreement, is an Acknowledgement.
- J. Total Other Income: This is all other income that has not been captured in the other rows, such as absorption account surpluses (for example plant and labour absorption accounts). To include any consortium income based on percentage and set monthly fees for administration/management purpose, and income from Consent fees. Please list the funding from each source as separate lines in the sub-table and show the total amount from all sources in the final column (AA).

Expenditure

- K. New Works and Improvement Works: This covers the gross cost of undertaking minor capital works that have not been capitalised, and the annual depreciation charges of all major schemes that have been capitalised. You should also include a fair proportion of the support costs directly associated with delivery of the schemes.
- L. Total Precept to the Environment Agency: This should include the total precept payment demand from the Environment Agency, regardless of any adjustment with the Environment Agency Higher Land Water Contribution.
- M. Watercourse Maintenance: This covers the costs associated with the maintenance of watercourses, meaning work associated with open channels, pipelines, culverts, bridges, etc. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. **Please do not include electricity or fuel costs as these are captured separately.** You should also include a fair proportion of the support costs directly associated with delivery of the maintenance programme.
- N. Pumping Stations, Sluices and Water level control structures: This covers the costs associated with maintaining and operating the pumping stations, sluices and water level control structures. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. **Please do not include electricity or fuel costs**

as these are captured separately. You should also include a fair proportion of the support costs directly associated with maintaining and operating the pumping stations, sluices and water level control structures.

- O. Administration: This covers the cost of non-technical staff only, office accommodation, annual depreciation of office equipment that has been capitalised, minor office equipment that has not been capitalised, postages, telecoms, stationery, printing, advertising, auditing of accounts, general insurances and all other costs associated with supporting the organisation. Please note that this does not include support costs, which are directly associated with the delivery of front-line services. **Please do not include electricity or fuel costs as these are captured separately.**
- P. Public Sector Cooperation Agreements (PSCA): all expenditure associated with the PSCA active during the reporting period. Please list the beneficiary of the spending as separate lines in the sub-table and show the total spending for all beneficiaries in the final column (BB).
- Q. Rechargeable Works: This covers all costs associated with undertaking work for third parties. Plant, vehicle and labour charges should include a fair proportion of the overheads such as depot/workshop costs, employment on-costs, insurances and depreciation, etc. You should also include a fair proportion of the support costs directly associated with undertaking the rechargeable work.
- R. Finance Charges: This covers all the costs of servicing any borrowing, in terms of bank/loan/hire purchase interest payable including the capital payment.
- S. Biodiversity enhancement and conservation: This covers the costs associated with undertaking works (capital or maintenance) that are likely intended to help enhance and/or conserve biodiversity. These costs are likely to be incurred in implementing actions set out in a board's Biodiversity Action Plan or other conservation actions. If possible, you should identify the overall costs and break them down into two groups: general across the whole IDB area, and SSSI specific areas (in implementing actions set out in Water Level Management Plans or River Restoration Plans). **Please do not include electricity or fuel costs as these are captured separately.**
- T. Other Expenditure: This covers all other expenditure, such as a provision for bad/doubtful debts, write-offs, and absorption account deficits (for example plant and labour absorption accounts). Please list the costs from each source as separate lines in the sub-table and show the total amount from all sources in the final column (BB).

Note the headings for recording the total cost of electricity and fuel use. For electricity subtotals record the elements of the total cost that account for the cost of the power used and separately the standing charge element. For diesel record the elements of the total cost that account for fuel used to run pumps and the fuel used for plant and machinery.

Exceptional Items

- U. Profits/(losses) arising from the disposal of fixed assets: For the disposal of assets, state the difference between any proceeds from the sale/disposal of the asset and the cost of the asset less accumulated depreciation.
- V. Developers Funds income not applied in year: Total balance of developer fund at year end.
- W. Grant income not applied in year: Unspent grant at year end.
- X. Loans: This should cover any borrowings that the Board has e.g. from the Public Works Loan Board. Under Section 55 of the Land Drainage Act 1991 Boards are permitted to borrow money for purposes related to their functions. Please list each loan as separate lines (as necessary) in the sub-table and show the total amount of loans in the final column.

Section B – IDB Reporting

Please answer **ALL QUESTIONS by checking boxes or providing text, where asked to do so.** Where a box is left unchecked, we will assume that there is nothing to report under that heading. Please provide quantified responses in the units requested (i.e. Hectares, Km or Cumecs).

The “Reporting period” is 1 April 2024 to 31 March 2025.

Policy Delivery Statement

Boards are required to produce a publicly available policy statement setting out their plans for delivering the Government’s policy aims and objectives. It is recommended that these statements are published on drainage Boards’ websites and are reviewed every three years.
